WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

**WARNING - Seizures**

Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

- **Convulsions**
- **Eye muscle twitching**
- **Involuntary movements**
- **Loss of awareness**
- **Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

**WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendinitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

**WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Our Story

This is a story about Baby Mario and Yoshi... A story that took place a long, long time ago.

A stork hurries across the dusky, pre-dawn sky. In his bill, he carries a pair of brothers. Suddenly, a shadow appears in a gap between the clouds and races toward the stork with blinding speed.

"SCRREEECH!!!
THE BABIES ARE MINE!"

Snatching only one baby, the creature vanishes into the darkness from whence it came.

The second baby falls undetected toward the open sea...

OH, NO...!
The kidnapper is Kamek, an evil Magikoopa from the Koopa Kingdom. Having divined that two babies born this morning would bring disaster to the Koopa family, he has arranged for an early-morning ambush. Returning to his castle, Kamek realizes that he missed the other baby. He rides his toad to retrieve it.

Go forth and find the other baby!! Don't let his parents get him back! Ever!!

But the second baby did not fall into the sea after all... it landed safely on Yoshi's back! And right after that, a map fell from the sky!!!

This paradise is Yoshi's Island. And on this island live lots of different Yoshis. These Yoshis are naturally laid-back and relaxed, but when the baby's arrival is a calamity, and everyone goes into a state of panic. As the Yoshis frantically yell over each other, the baby insistently points at something.

Yes! The baby can sense his brother's location. All the Yoshis quickly agree to help carry the baby to its destination by using a relay system, not unlike the old pony express. The Green Yoshi draws first honors. With the young baby on his back, he sets out in the direction the baby is pointing...

Playing the Game

1. Clearing Stages

To clear a stage, jump through the GOAL ring and hand Baby Mario off to the next Yoshi. Defeat as many enemies and bosses as you can while you try to make your way to the end of each stage.

2. Star Power

When this number reaches zero...

If you get hit by an enemy and take damage, Baby Mario will fall off of Yoshi's back. When this happens, the power of the stars will protect Baby Mario for a short while. A timer appears to show just how long this protection lasts. If the counter reaches zero, Baby Mario will be swept away by Kamek's noodies. Try to get Baby Mario back on Yoshi's back before time runs out!

Stars

Star power is set to ten whenever you start a stage, but that number goes up by one for each star that Yoshi grabs in the stage. The power can increase to a maximum of 30. Even if you take damage and the number falls, it will automatically be set to ten again after you get Baby Mario back.

Helpful Techniques

If Baby Mario floats too high in the sky for you to grab him, you can hit him with an egg to bring him back down. You can also grab him with your tongue by shooting your tongue upward.
Midway through each stage is a ring of light called the Middle Ring. Once you get through this ring, you will restart the stage from nearby if you fail before completing the stage. Also, as you pass through it, your star power will rise back to ten.

If you fail and get the Game Over message, you will have to restart the stage from the beginning.

Anytime you press START while in one of the stages, you can view the pause menu. Use the + Control Pad to make a selection and press the A Button to confirm.

Pause your game and activate Sleep Mode. To deactivate Sleep Mode, simply press SELECT and the L and R Buttons simultaneously. See page 11 for details about Sleep Mode.

There are five flowers in each stage. Collect all of them for a 1-Up. Flowers are worth a lot of points.

Yoshi can carry up to six eggs at a time. You can swallow enemies to make eggs, or you can get eggs by hitting certain blocks. When you use any egg other than a green one, an item will appear.

There are 20 red coins hidden in each stage. If you get all of them before you reach the goal, it will dramatically affect your score. They also get added to your coin count.

You'll find coins all over the place. Collect 100 of them to get a 1-Up.

**Enemy Profiles**

- Fireballs: If you're not careful, they'll be able to hit the floor beneath them and just as the third time out of action.
- Freezeys: If you don't knock these guys out quick, they'll freeze the floors and send you sliding away.
- Fighter Flies: Good timing is essential to getting rid of these flying pests.
- Crabs: Alas, these pesky tough customers, so you'll need to bump them twice to stun them. They're a lot faster than the Spinys, too.

Using the Garbage Can

1 Use It Well, and Use It Often

- When you are playing Two-Player Vs., a garbage can rests on the bottom level in the game. Use it well, for it can sometimes be the key to victory.
- If you pick up your rival and carry him or her to the garbage can, the lid will open and you can throw that player inside. It will automatically close and keep that opponent out of action for a while.
- If you're in the garbage can, you'll have to wait a few seconds until the lid opens again. When it opens, jump out and rejoin the game.
- Being trapped in the garbage gives your rival a chance to grab some coins, but you'll receive a special item that might help you turn the tables on them!
- If your opponent is standing on top of the can and you're trapped inside, use the Super Jump to knock him or her off and escape.
- You will receive a random item when you jump or are thrown into the garbage can.
- The garbage can holds four different types of items. One of these, the egg, contains one of three additional items. You never know what you'll get, so don't forget the garbage can when planning your game strategy.

These shells damage anything they hit. You need to throw them or kick them to send them sliding away.

If you're really lucky, your egg will contain a coin.

Starmen make you temporarily invincible.

These are useless, and they smell funny. Throw them away.
